## Telemetry & Remote SCADA Solutions

  
www.controlmicrosystems.com

- Remote terminal units RTU's/PLC's • Wireless sensors
- Gas & liquid flow computers • Electronic flow measurement (EFM)
- Data loggers • Human Machine Interface (HMI)
- Radios - Serial & Ethernet • Rod pump controller
- Turnkey systems & services

**Accutech**

**SCADAPack**

www.weg.net/us

## Variable Speed Drives, Motors, Soft Starts, Accessories

- Low and medium voltage drives, motors, controls, and accessories
- Portable buildings for VFD & Switchgear, Power Distribution Centers, SCR Houses, Analyzer Shelters or RTU Houses

  
www.ioitulsa.com

## Hazardous Area Solutions

20 years experience in Hazardous Location Consulting

- Purge Systems • Intrinsic Safety • Instruments & electronic devices for classified hazardous locations

  
www.exloc.com

**ACROMAG** • Temperature transmitters • Signal conditioning • Single to multi-channel, for critical or lab applications, math/integrator and frequency output modules • Busworks™ modules/transmitters for Modbus, Profibus • Ethernet TCP/IP and Ethernet IP

**A-T CONTROLS** • Ball valves - High performance, manual & automated, firesafe, 2, 3, 4, & 5-Way ball valves, CS & SS Body, 1, 2, & 3 piece design NPT, flanged & sanitary end connections • Featuring Pyramidal stem packing system • Pneumatic, electric & heavy duty actuators • High performance manual & automated butterfly valves • Limit switches, indicators, solenoids & mounting kits available

**BERTHOLD** • The global leader in radiometric technology • Solutions for the measurement of level, density, bulk flow or moisture using non-contacting, non-intrusive radiometric & microwave measurement technology

**CATALYTIC HEATER CO. (CATCO)** • Catalytic heaters, natural gas or propane, 1500 BTU to 60,000 BTU • Applications include natural gas regulation and measurement, oven & process, space heating, CNG vehicle garage • Flameless, safe for hazardous areas

**DATA INDUSTRIAL** • Impeller Flow Sensors & transmitters • BTU Transmitters for Sub Metering Applications • Wireless Flow monitoring

**ELPRO TECHNOLOGIES** • Industrial wireless solutions including wireless I/O, wireless Ethernet, wireless gateways, wireless profibus, wireless device servers

**APPLIED ANALYTICS** • AA Solid State Analyzers primarily use two sensing technologies. Dispersive, UV/Vis spectrophotometry or NDIR. Self-aligning optics. Custom sampling systems per application

**EUROTHERM CONTROLS INVENSYS (BARBER COLMAN)** • Temperature/process controllers - Single loop, multi-loop or network systems • Digital indicators, FM alarm switches and power control products, including solid state relays, contactors and SCR units • Box actuators and sensors • Graphic, touchscreen data loggers, recorders & HMI devices • Data acquisition, display, storage, management & networking

**EXLOC INSTRUMENTS** • Intrinsically Safe Loop Powered, Serial, and Fieldbus Displays • IS alarms & beacons • Purge systems • Static Grounding Equipment • IS Camera • IS Cell Phones & PDA's • Instruments, electronic devices and other products specifically designed and approved for use in classified hazardous locations • Intrinsically Safe apparatus

**GAYESCO** • Tubeskin Thermocouples for Process Heaters • Multipoint Thermocouples • Reactor Profiling Systems • Gas Measurement RTD's

**HF SCIENTIFIC** • Water treatment instrumentation • Process, laboratory and portable instruments, test kits and reagents • Turbidity, streaming current, TOC, residual chlorine monitors, pH, ORP, conductivity, dissolved oxygen, dissolved ozone, UV % transmission

**K-TEK** • Magnetically coupled level gauges • Magnetostrictive transmitters • Guided Wave Radar transmitters • Level Switches; Float operated & electronic, including tuning fork, thermal dispersion & capacitance • Laser level transmitters • Ultrasonic level • Worldwide approvals

**BRISKHEAT®** • Flexible surface heating solutions, self-regulating heat cable, Heating blankets, Hopper heating systems, composite curing solutions and custom heating applications

**PIETRO FIORENTINI** • FLOWATCH is a real - time, non-intrusive, in-line multiphase flow meter (MPFM). It is used for measuring flow rates of oil, water and gas from a well stream or in a pipeline without prior separation • Patented metering section & detector

**PROVIBTECH** • Mechanical & electronic vibration switches • Two wire velocity transmitters • Digital transmitters for velocity & proximity sensors • Portable vibration monitors • Complete monitoring systems

**ROXTEC** • Sealing solutions for cable and pipe penetrations • The Flexible Sealing System • Roxtec UG™ – new cable entry seals for underground applications • Roxtec BG™ sealing solutions for bonding & grounding • Conduit Sealing Solutions • Reliable Storm Hardening Protection customized solutions • Multidiameter™ - adaptable, flexible modular-based seals

**SCHNEIDER ELECTRIC** • SCADAPack - Compact, "hardened" Smart RTU for use in SCADA & telemetry applications • Modbus & DNP3 protocols • Gas flow computers "EFM" AGA-3,-7,-8 & API 21.1 certified, liquid flow computers, & multivariable transmitters • Accutech - Wireless instrumentation sensors, Class 1, Div. 1 hazardous area ratings, Self contained, Self powered, Rapid deployment • Trio - licensed & unlicensed wireless Ethernet & serial radios • ClearSCADA – State-of-the-art SCADA host platform, open, scalable, object oriented, easily redundant • Rod Pump Controller (RPC) – Automated Torque Control or Downhole Card Control via Altivar 71 VFD with imbedded controller • Maximizes production • Reduces maintenance • Turnkey Systems & Services

**SIERRA MONITOR CORPORATION** • PROTECT - gas & flame detection • Single to multi-point stand-alone or network systems • Industrial & municipal including combustible, toxic & refrigerant monitoring • FieldServer - CONNECT with protocol converters - over 140 drivers

**THERMO FISHER SCIENTIFIC (BRANDT)** • TRANSDUCERS, in stock. I/P Transducers, high accuracy E-Pi module & feedback monitoring

**THERMOCOUPLE TECHNOLOGY (TTEC)** • All varieties of thermocouples, RTD's and thermowells, including custom assemblies & instrumentation

**WEG** • Variable speed drives, motors and starters, low and medium voltage, for industrial and energy systems • Atlanta-based custom panel shop for controls integration

**Stocking Distributor**
